Work History

WEB APPLICATION DEVELOPER, 03/2018 - Current

Roots Digital Ltd, Accra, GH

- Planned website development, converting mockups into usable web presence with HTML, CSS JavaScript, AJAX, and JSON coding.
- Applied the latest emerging technology, software, and project application trends to update and maintain site applicability.
- Developed web apps using pre-made user interface frameworks such as Bootstrap, Material UI and Tailwind.
- Provided ongoing efficiency and security maintenance and patching on website interface to maintain viability after launch.
- Designed web apps using continuous integration, continuous delivery (CI/CD) design models.
- Implemented UI and usability changes based on customer feedback, addressing end-user pain points with post-launch patches.
- Multi-tasked across multiple functions and roles to generate project results and meet deadlines and organizational expectations.

WEB DEVELOPER, 10/2015 - 11/2017

Trigger Pixels, Accra, GH

- Coded websites using HTML, CSS, JavaScript, and JQuery languages.
- Provided front-end website development using WordPress.
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, AJAX, and JSON coding.
- Employed coding practices based on commonly accepted standards to establish site layout and user interface.
- Conducted testing and review of website design for responsiveness, clarity, and effectiveness.
- Provided ongoing efficiency and security maintenance and patching on website interface to maintain viability after launch.
- Employed search engine optimization tactics to increase the reach of the targeted audience.
- Established presentation consistency across Chrome, Safari, Firefox, and other common browser interfaces.

WEB DEVELOPER INTERN, 05/2015 - 07/2015

Trigger Pixels, Accra, GH

- Developed user interfaces with modern Javascript frameworks, HTML5 and CSS3.
- Troubleshoot and debugged code ensuring compatibility with devices, browsers, and operating systems.
