- Typescript
- Git
- Tailwind

EXPERIENCE

Full Stack Developer   05/2020 - Current
Swoove *Accra*
Agency Admin Panel:

- Transformed given user interfaces into an admin panel that enables delivery agencies to effectively oversee their drivers, vehicles, and trips.
- Wrote code that is both maintainable and beginner friendly, fostering effective collaboration among developers and facilitating streamlined codebase management.

Business Admin Panel:

- Tasked with developing an admin panel to allow businesses of any size manage their deliveries.
- Collaborated with the backend team to work on some of the routes needed to realize the functionalities for the panel.

Delivery Creation Portal:

- Developed a webpage to enable users create deliveries.
- Seamlessly integrated the webpage into the agency and business dashboards, allowing for the creation of deliveries directly from those platforms.

Front End Developer (Contract)   07/2022 - 05/2023
Ghana Music Live *Accra , Ghana*

- Developed responsive and cross-browser compatible websites and admin panels placing a strong emphasis on adhering to web standards and accessibility guidelines while ensuring optimal performance of the websites.
- Worked closely with product owners, designers and other stakeholders throughout the development process.
- Developed reusable components that can be used in future projects with minimal effort.
- Collaborated with back-end developers to integrate user interface elements into

applications.

Front End Developer (Contract)   10/2021 - 11/2022
Brolly *Accra, Ghana*

- Converted provided designs into a fully functional website, prioritizing the seamless integration of design elements and optimizing user interfaces to deliver an exceptional user experience.
- Integrated front end code with server side code to implement dynamic pages.

Web Applications Developer   03/2018 - 04/2020
Roots Digital Ltd. *Accra, Ghana*

- Collaborated closely with the design team to convert wireframes and mock-ups into functional and interactive web interfaces. Drawing upon my expertise in front-end technologies, visually compelling and responsive layouts were created.
- Maintained close collaboration with designers, back-end developers and stakeholders to ensure seamless coordination throughout the development process. This involved active participation in regular meetings, where technical insights and suggestions to enhance the overall outcome of the project were provided.

Web Developer   05/2015 - 08/2017
Trigger Pixels *Accra, Ghana*

- Fostered collaboration with both designers and back-end developers to effectively implement responsive and interactive web pages.
- Leveraging expertise in HTML, CSS and JavaScript, static design mock-ups were transformed into dynamic fully functional websites that adhered to modern web standards
